

## Artwork Presentation

*Good communication and years of experience lead to the final process of art approval. We represent the general overview, layout, text and appearance of your design to your satisfaction. After we receive approval and payment, our factory artists complete the production artwork. We review to insure compliance with your requests. On orders for over 5000 pins, we request a sample to insure the quality and complexity meets the high standards we have adopted over the last 30 years.*

*When all is in order, we start production of your custom pin.*

*Art ready for final approval and production*
